SIDE EVENT:
MONITORING THE IMPLEMENTATION OF SDGS FROM A GENDER PERSPECTIVE: TOOLS FOR ACCOUNTABILITY

TUESDAY, 15 MARCH
3.00 – 4.15 PM
CONFERENCE ROOM 11

Join us for a conversation on gender, data and the Sustainable Development Goals:
Building on UN Women’s preparatory work on monitoring the SDGs, including its contributions to the work of the Inter-Agency and Expert Group on SDG Indicators (IAEG-SDGs), this side event will discuss how a strong monitoring framework, backed by robust gender-sensitive indicators and quality gender statistics, can help support the implementation of the 2030 Agenda on Sustainable Development and provide tools for accountability.
