

TOOLS FOR CHANGE

Closing the economic and life course gap

Join the Nordic expert panel at the CSW!

**Wednesday 13 March, 10-11:15 am
UNHQ Conference Room 12**

Pension systems are key policy tools for the economic protection of older adults across countries. Still, the life-long unequal sharing of unpaid caring and household responsibilities often contributes to a gender pay gap and a pension gap. As a result, women risk poverty to much larger extent than men in old age.

This Nordic expert panel will highlight tools that have proven useful in transforming unequal gender outcomes.
